

AI doesn't just change tools. AI changes work.

I help companies, teams and leaders understand what generative AI really changes. And how to use it today: practically, productively and responsibly.

GERALD AICHHOLZER ADVISOR, TRAINER & SPEAKER ON GENERATIVE AI

OFFERING

Formats for companies, teams and people who want to understand AI in practice.

CLEAR & TO THE POINT

01

Talks & keynotes

For client events, leadership, internal gatherings and conferences. Clear, sharp and with concrete examples from practice. From a 30-minute impulse talk to a keynote with discussion.

FUTURE OF WORK

AGENTIC WORKING

OPPORTUNITIES & LIMITS

HANDS-ON WITH THE TEAM

02

Workshops & training

Hands-on formats for teams and departments. No dry theory, just trying things out together, reflecting and applying it to your own day-to-day work.

PROMPTING

AI WORKFLOWS

SAFE USAGE

BE ABLE TO BUILD THINGS

03

Coding for Non-Coders

For people without a programming background who have ideas, processes or problems that AI can turn into small tools, prototypes or automations today.

TOOLS

PROTOTYPES

AUTOMATION

ORIENTATION & ROADMAP

04

AI transformation & sparring

For organizations that want to introduce generative AI in a structured way, identify use cases or build internal enablement formats, with realistic next steps.

USE CASES

ENABLEMENT

GOVERNANCE

HOW I WORK

Clear

Also for people without a technical background.

Practical

With exercises, demos and concrete application.

Realistic

Mindful of limits, risks and error tolerance.

Relevant

Aligned with the audience's actual work.

Planning an AI format for your company?

A short note is enough: target group, occasion, timeframe.
